

§ 255.9

(1) The number of system components leased from another system vendor or

(2) The volume of transactions conducted on any other system.

(c) No system owner may require use of its system by the subscriber in any sale of its air transportation services.

(d) No system owner may require that a travel agent use or subscribe to its system as a condition for the receipt of any commission for the sale of its air transportation services.

(e) No system may charge prices to subscribers conditioned in whole or in part on the identity of carriers whose flights are sold by the subscriber.

§ 255.9 Use of third-party hardware, software and databases.

(a) No system may prohibit or restrict, directly or indirectly, the use of:

(1) Third-party computer hardware or software in conjunction with CRS services, except as necessary to protect the integrity of the system, or

(2) A CRS terminal to access directly any other system or database providing information on airline services, unless the terminal is owned by the system.

(b) This section prohibits, among other things, a system's:

(1) Imposition of fees in excess of commercially reasonable levels to certify third-party equipment;

(2) Undue delays or redundant or unnecessary testing before certifying such equipment;

(3) Refusal to provide any services normally provided subscribers because of a subscriber's use of third-party equipment or because of the subscriber's using the same equipment (unless owned by the system) for access to both the system and to another system or database; and

(4) Termination of a subscriber contract because of the subscriber's use of third-party equipment or use of the same equipment for access to the system and to another system or database.

(c) A system shall make available to developers of third-party hardware and software on commercially reasonable terms the nonproprietary system architecture specifications and other nonproprietary technical information needed to enable such developers to

14 CFR Ch. II (1–1–02 Edition)

create products that will be compatible with the system.

(d) Nothing in this section shall be construed to require any system or system owner to:

(1) Develop or supply any particular product, device, hardware or software to enable a subscriber to use another system, or

(2) Provide service or support with respect to any product, device, hardware, software, or service not provided to a subscriber by the system or system owner.

§ 255.10 Marketing and booking information.

(a) Each system shall make available to all U.S. participating carriers on nondiscriminatory terms all marketing, booking, and sales data relating to carriers that it elects to generate from its system. The data made available shall be as complete and accurate as the data provided a system owner.

(b) Each system shall make available to all foreign participating carriers on nondiscriminatory terms all marketing, booking, and sales data relating to bookings on international services that it elects to generate from its system, provided that no system may provide such data to a foreign carrier if the foreign carrier or an affiliate owns, operates, or controls a system in a foreign country, unless such carrier or system provides comparable data to all U.S. carriers on nondiscriminatory terms. Before a system provides such data to a foreign carrier, it shall give written notice to each of the U.S. participating carriers in its system that it will provide such data to such foreign carrier. The data made available by a system shall be as complete and accurate as the data provided a system owner.

(c) Any U.S. or foreign carrier receiving data on international bookings from a system must ensure that no one has access to the data except its own personnel and the personnel of any outside firm used for processing the data on its behalf, except to the extent that the system or a system owner provides such access to other persons.
